

Stem Cell Medicine - Lecture and Seminar
Winter Semester 2024/25
Fridays 10:00-12:00
Lectures in MA 5/61 or via Zoom
Seminar in HMA 30

Date	Speaker	Title of the lecture	Location
11.10.24	Prof. Beate Brand-Saberi	Introduction to the module	Zoom
18.10.24	Prof. Beate Brand-Saberi	Stem Cells and development: From cleavage to gastrulation	Zoom 16:00-18:00
25.10.24	Prof. Beate Brand-Saberi	Gastrulation and germ layers	Zoom
01.11.24	Dr. Marion Scharf	Cell cycle control and its implications for stem cell biology (Video on Moodle only)	
08.11.24	Prof. Beate Brand-Saberi	Development of the cardiovascular system	MA 5/61
15.11.24	Prof. Beate Brand-Saberi	Development of the locomotory system	MA 5/61
22.11.24	Prof. Beate Brand-Saberi	Kidney development	MA 5/61
29.11.24	Prof. Beate Brand-Saberi	Development of the neuroectoderm	MA 5/61
06.12.24	Prof. Beate Brand-Saberi	Development of the gastrointestinal tract	MA 5/61
13.12.24	Prof. Beate Brand-Saberi	Reproductive medicine and the beginning of life	MA 5/61
20.12.24	Prof. Beate Brand-Saberi	Hematopoietic and mesenchymal stem cells	MA 5/61
10.01.25	Prof. Beate Brand-Saberi	Embryonic stem cells/induced pluripotent stem cells	MA 5/61
31.01.25	Seminar	Students presentations of relevant literature	HMA 30
28.02.25	Written Exam	Compulsory for all Stem Cell Medicine students	TBA
